

Web Filtering and Reporting Suite 5.1.30 Release Notes

June 2015

Trustwave is pleased to announce the release of Web Filtering and Reporting Suite (WFR) software version 5.1.30. This software release requires a Trustwave WFR appliance running software version 5.1.26 and will upgrade the Trustwave WFR software version to 5.1.30. This release is not available to any 32-bit appliances.

Notes:

- As part of the upgrade, the system will be restarted.
- Once installed, the upgrade cannot be uninstalled.

Web Filter Updated Features

Web Filter 5.1.30 includes the following significant feature updates:

Mobile Security Client version

This release includes MSC version 2.1.6. This version of MSC works with Safari on Mac OS 10.10 (Yosemite).

Security Reporter

WFR 5.1.30 includes Security Reporter 3.3.20. For a list of resolved issues in this version of SR, see below.

SR 3.3.20 does not provide reporting for Secure Web Gateway (SWG). You cannot upgrade WFR 5.1.30 if SWG devices are present in the SR Device Registry.

Resolved Issues

- For a list of Resolved Known Issues in Web Filter, browse to <http://www.trustwave.com/software/8e6/ts/r3000-rki.html>. Click the Web Filter 5.1.30 accordion section to view the resolved known issues for this software release.
- For a list of Resolved Known Issues in Security Reporter, browse to <http://www.trustwave.com/software/8e6/ts/sr-rki.html>. Click the SR 3.3.20 accordion section to view the resolved known issues for this software release.

System Requirements

This software release is available for the following hardware platforms:

- WFR 350 or 550

Update Instructions

To update your supported Web Filter appliance, see the Software Update section of the *Administrator Guide* or Software Update screen in the Console.

Documentation

To download the full set of documentation that applies to this release, see <https://www.trustwave.com/support/WFR/>.
